

RED CROWN GASOLINE

Be fair to your automobile, motor truck or motor boat. Fill the tank with **Red Crown** and note the improvement, feel the vim and snap the engine develops, and note the clean sustained flow of power.

Red Crown is the only gasoline made expressly for use in motor driven vehicles. It is absolutely uniform, carries a greater number of heat units per gallon (which means speed, power, mileage).

Made in the world's greatest refinery under direction of the most skillful refiners.

PATRICK J. LUCEY, La Salle.

For State Treasurer.
WILLIAM RYAN, JR., Vermilion.

For State Auditor.
JAMES J. BRADY, Cook.

For Congressman at Large.
LOUIS FITZHENRY, McLean.

ASK FOR WATER METERS

City Club Engineers Say They
Are Only Solution of Chicago
Water Problem.

City Club engineers have made a report urging immediate steps to remedy the city's water system.

Nearly half the water pumped, according to the engineers, is wasted through leaks, carelessness of consumers, and widespread extravagance in the use of the water.

The report is signed by E. W. Bemis, public utility engineer; Ray Palmer, former city electrician, and Henry W. Clausen, assistant city engineer. Their principal recommendation is to make the installation of meters compulsory all over the city.

"A serious problem confronts Chicago," the report says. "During the months of largest water waste in the very cold and in very hot weather the pressure is insufficient for the fourth floors of apartment houses, the number of which is rapidly increasing.

"In any considerable fire at some distance from a large main enough water might not be obtained for efficient service by several engines pumping at once. Most large cities maintain a much higher pressure in residence districts than does Chicago."

The engineers recommend that three preliminary steps be taken at once:

"The city council should appropriate \$10,000 for the construction of meter vaults at the curb where they cannot be set in basements.

"All unmetered premises devoted in whole or part to business and all public buildings should be metered.

"The city water department should have the authority to set meters not only as now, where the frontage rate is \$100 per year and more, but where it is \$50 per year. Later the limit should be reduced to \$25 a year."

In Chicago the per capita pumpage of water is 254 gallons, or twice as much as most large cities where meters are universal.

SANITARY DISTRICT OF CHICAGO.

President, Thomas A. Smyth.
Clark, John McGillen.
Comptroller, Francis D. Conery.
Treasurer, John A. McCormick.

Trustees:
Thomas A. Smyth,
James M. Dalley,
Charles E. Reading,
Edward Kane,
Patrick J. Carr,
Fred D. Breit.

Thomas M. Sullivan,
George W. Paulina,
Wallace G. Clark.

Facts about the Sanitary District and drainage canal:

The main and water power channel is 40 miles long.
Length of river, lake to Robey street, 6 miles.
Length river diversion channel, 13 miles.

Width main channel, Robey street to Summit:
Bottom, 110 feet; top, 198.
Width main channel, Summit to Willow Springs:
Bottom, 202 feet; top, 290.

Width main channel, Willow Springs to Lockport (rock section): Bottom, 160 feet; top, 162.
Width river diversion channel: Bottom, 200 feet.

Minimum depth of water in main channel, 22 feet.
Current in earth sections, 1.4 miles per hour.
Current in rock sections, 1.9 miles per hour.

Present capacity of canal, 300,000 cubic feet per minute.
Total amount of excavation, 42,229,635 cubic yards.

The north shore channel, extending from Lawrence avenue to Lake Michigan, in the village of Wilmette, is about 8 miles long with a water depth of 13.5 feet.

Construction of the Sag canal to drain the Calumet region was begun in the summer of 1911.
Sag channel will be 22 miles long when work is finished.

Ralph Temple has a great car in the eight-cylinder Hollier. It is a great car, high grade and popular with everybody who has used it.

John L. Forch is talked of for City Treasurer.

HOFFMAN'S STAFF

Popular Coroner, Who Is the
Most Popular Republican in
Chicago, Announces His
Staff.

Coroner Hoffman announces his staff for 1916 as follows, with their individual telephones:

Rae Hoffman, Private Secretary—Desplains 20.

Conrad Mueller, Vault Clerk—Desplains 473.

S. B. Byram, Voucher Clerk—Thorn-ton, Illinois.

George Clark, Investigator—River Forest 4151-W.

George Scrivner, Investigator—Rogers Park 4802.

It is about time that the state of Illinois came to the rescue of the people and passed a law prohibiting the misuse of the name bank.

As matters stand at present, anyone with money enough to hire and equip a store can paint the name bank on the front windows and solicit and receive deposits without let or hindrance.

Every year hundreds of people lose their savings through the failure or collapse of one or more of these wildcat institutions.

Legitimate banks which are in themselves a guarantee of security, are passed by by thousands of simple and gullible people who are charmed by the advertisements and cunning allurements of men who never did any legitimate banking and who never intended to do any.

The Chicago Eagle has often referred to this matter before and it again urges upon the legislature and upon men who are seeking seats in the general assembly, the necessity for passing a law protecting legitimate banks and prohibiting illegitimate ones.

The Adolph Market Company at 180 North State street is doing a very prosperous business. Located near Lake street, it is in the heart of the city and is within reach of everybody because of the convenient transportation facilities.

Arrah J. Whisler, president of the Akron Tire & Vulcanizing Company, is highly respected in the business world because of his clean cut and up-right methods.

If the Democratic party falls down on the Initiative and Referendum, it will fall down on itself.

Lower Gas Bills!

The Peoples Gas Light & Coke Company has undertaken a sincere effort to make clear to the people of Chicago how their gas bills may be reduced—and why. In doing this, the company is ready and willing to lay before the public all details of its business.

The people of Chicago are cordially invited to ask, and the company agrees to answer, through advertisements now running in the big daily papers, any and all questions bearing upon the subject of gas.

The only way to reduce the cost of manufacturing gas in Chicago is to adopt scientific "heat unit" gas in place of obsolete "candle power" gas. Scientific "heat unit" gas is rapidly replacing obsolete "candle power" gas almost everywhere.

Up-to-Date Methods Needed

In Chicago the Company is powerless to make the change for the better, from "candle power" to "heat unit" gas, without the consent of the authorities. The city council now has it under consideration. It will have to be decided, not on theory or prejudice, but on the facts. The company has the facts. It will state them accurately and fairly, and it invites the public to help examine and judge them.

Write to the Gas Company

Everybody is cordially urged by the Company to read its advertisements as they appear from day to day in the big daily papers, and to write to the Company their comments or questions on any statements made in the advertisements.

Just address your letter or postcard to Department B,
Peoples Gas Light & Coke Company, and watch for the
answer in succeeding advertisements in big daily papers.
